Financial Agreement for Services

This document is designed to **communicate financial expectations** in our therapeutic relationship. Restoration Counseling and Consultation, P.A. (RCC) is a team of independent, self-employed clinicians who receive your payments directly. We are not focused on money but like anyone we need income to pay our bills and continue providing the service you are seeking. **By signing this agreement you agree to and acknowledge each of the following conditions:**

1. Our **fees** are based on the **time** you are scheduled with your therapist (**$125-$185**) or other services you request (letters, court reports, assessments).
   a. **Payment is due** at the time of service.
   b. You are **personally responsible** for paying all fees and charges associated with your account.
2. By making an appointment **you have reserved time** with your therapist and essentially "purchased" that session time, regardless of whether or not you show up to use it. **Not showing up** to your appointment or canceling your appointment on the same day deprives another client of a chance for service and deprives the therapist of their income.
   a. We have all **missed appointments** for a variety of reasons, we understand, which is why your first **"no show"** or same-day cancellation is canceled at no charge.
   b. Your second "no show" or same-day cancellation will result in an automatic charge of **$65**.
   c. Your third "no show" or same-day cancellation will result in an automatic charge of **$100** and may also result in the **loss of your standing appointments** or **termination of services** with your therapist.
3. If you are **unable to pay** your therapist for their services, we will be glad to provide you with **referral** options for other community resources.
4. Schedule changes and **cancellations can only be made by calling the office.**

I authorize the release of any medical or other information necessary to process insurance claims. I also request payment of government benefits either to myself or to the party who accepts assignment of insurance claims. I authorize payment of insurance benefits for services provided to be made directly to RCC. In the event that I am paid by my insurance company, I agree to promptly pay RCC.

My Signature confirms that I agree to this financial agreement and that I acknowledge that this credit card information will be automatically kept on file via PCI-compliant encrypted code with a secure credit card processor.

RCC Telehealth/Public Health Informed Consent

Definitions: Telehealth is the delivery of behavioral health services using interactive technologies (use of electronic communications) between a practitioner and a client/patient who are not in the same physical location. This service is provided by technology (**audio** by phone, **video** using the ***Therapy Appointment*** patient portal) and may not involve direct face to face communication. This delivery method offers **benefits** of convenience as well as **limitations** and **risks**.

1. All **previously signed agreements** and consent forms regarding treatment are **still in effect**. Clients have the **right** to withhold or withdraw their consent for telehealth treatment at any time without affecting their right to future care or treatment. In such cases, **clients have the right** to suspend treatment or request referral to another therapist.
2. The **interactive technologies** used in telehealth incorporate **security protocols** to protect the confidentiality of client/patient information transmitted via any electronic channel. Despite reasonable efforts to secure these systems, security breaches (exposing client protected health information) and equipment/service failures are still possible.
3. In order to participate in telehealth therapy, **clients will be responsible** for providing/ensuring:
    a. Access to appropriate **technology** and Internet service as well as familiarity with its function.
    b. **Security and functionality** for their own device and network.
    c. A **private space** free from distraction or intrusion/observation/listening of others.
4. Telehealth is a **new** delivery method for professional services, in an area not yet fully validated by research, and may have potential **risks**, possibly including some that are not yet recognized.
    a. An important part of traditional psychotherapy is sitting face to face with an individual, where non-verbal communication is readily available to both therapist and client. Without this information, telehealth therapy may be **slower** to progress or **less effective**. As with any treatment, there can be no guarantee that the client's condition will improve and in some cases the client's condition may worsen.
5. If a need for direct, **in-person services** arises, it is the **client's responsibility** to contact providers, such as the therapist's office for an in-person appointment or primary care physician if the therapist is unavailable. An opening may not be immediately available in either office and telehealth services cannot provide emergency care - it is the client's responsibility to call 911 in the case of an emergency.
6. The therapist and client will need to **regularly reassess** the appropriateness of continuing to deliver services through the use of the technologies agreed upon and modify the treatment plan as needed.

7. The **laws and professional standards** that apply to in-person behavioral health services also apply to telehealth services. As such, the information disclosed by the client during the course of therapy is confidential. However, there are mandatory **exceptions to confidentiality**, including, but not limited to (a) reporting child, elder, and dependent adult abuse; (b) expressed threats of violence towards an ascertainable victim; and (c) in the event that a court order exists compelling the therapist to reveal the client's protected health information.
8. By signing this form, the **client acknowledges** that in-person appointments increase the **risk of exposure** to possible health **contagion** and despite best efforts to sterilize the office space, RCC cannot guarantee a sterile environment.
    a. Additionally, if any clinician in the office **tests positive** for COVID-19 and you were seen during the preceding 14 day period, you will be **notified** so you can take the appropriate precautions.
    b. The therapist may be required to **notify local health authorities** that you have been in the office. If it is determined that a report needs to be made, your therapist will only disclose the minimum information necessary for their data collection and will not go into details about the reason(s) for treatment. **By signing this form, you are agreeing** to the release of your information without an additional signed release.

My signature below indicates that I understand and agree with the above terms and give my full and informed consent to receive telehealth psychotherapy/counseling services from a provider at Restoration Counseling & Consultation P.A.
